OCTOBER

- Harvest
- Leaves
- Squirrels & Acorns
- Autumn or Fall
- Apples
- Pumpkins
- Belonging & "Where I'm From"

This month is a time of transition from summer to winter, colder temperatures, and changing leaves. Children can observe these changes through sensory play, such as watching leaves change colors, feeling different textures, and listening to sounds.

NOVEMBER

- Thanksgiving
- Gratitude
- Pilgrims & Native Americans
- Pumpkins
- Turkeys
- Hibernation & nocturnal Animals
- Veterans Day & Elections

FEBRUARY

- Black History Month
- Dental Health
- Healthy Habits & Germs
- Valentine's Day
- 100th Day of School
- President's Day
- Trees & Nature Exploration

Intentional Teaching:

The best way to introduce healthy habits to your students is to be a role model. Sharing information about eating, drinking plenty of water, and getting proper sleep can help them develop healthy habits to last a lifetime.

MARCH

- Dr. Seuss
- Insects
- Transportation
- St. Patrick's Day
- Plant Life Cycle
- Arts Education
- Family Bonds & Caregiving

Intentional Teaching:

March can be a time to learn about the life cycles of plants and its correlation to the weather. This month is also Arts Education Month, which can be a time to celebrate creativity and imagination in your classroom.

APRIL

- Spring
- Earth Day
- Recycling
- Easter
- Frogs' Life Cycle
- Environmental
- Stewardship

Intentional Teaching:

Earth Day is an excellent time to introduce important concepts such as recycling, planting, and pollution and can help children develop a sense of responsibility for the environment and make more sustainable choices. They can learn to appreciate nature and understand how their actions impact it, developing critical thinking and problem solving skills.

MAY

- Memorial Day
- Oceans, Rivers, Lakes, Ponds & Water Play
- Cinco De Mayo
- Mother's Day
- End of the School Year
- Music & Rhythm

Intentional Teaching:

The ocean plays a vital role in almost every aspect of human life, and every child's eyes could really learn something about the ocean's wonders. By understanding how the ocean is connected to everything, children will learn to care for and protect it. The ocean also helps us breathe.

JUNE

- Summer
- Beach Safety
- Farm, Zoo & Circus Animals
- Father's Day
- Sensory Exploration

Intentional Teaching:

Introducing water safety for children is crucial because drowning is the leading cause of death in children ages 1 to 4. You can talk to the children about bath safety. Children are often tempted to explore new areas, like toilet bowls, and sinks. Supervision as children use the restroom is very important. It will prevent flooding, and other detrimental things from occurring.

JULY

- Independence Day
- Summer Fun
- Scavenger Hunts
- Nature
- Gardening
- Movement & Mindfulness

Intentional Teaching:

Children can learn about summer through a variety of activities that can help them understand the world around them, develop social skills, and make real-world connections. Some activities like nature scavenger hunts on the playground or through the building, and outdoor art projects. You can encourage children to ask questions, discover, and think critically by connecting lessons to experiences they have throughout the summer.

HOURS OF OPERATIONS

MONDAY – FRIDAY

Drop-Off Time | **6:30am**

Pick Up Time | **6:00pm**

PreK Day is

8:00–2:30.

Children are to be dropped off no later than 8:00 a.m. daily.

Any child reporting to school after 8:00 a.m. must present a doctor's excuse or other valid excuse to be permitted into class for the day.

Drop off and pick up times are confusing times for children. We have learned that a quick transition of authority is best.

We suggest a hug, a kiss and
"I'll pick you up later. I love you and have fun today."
